Bachelor of Engineering (B.E.)
Sambhram Institute of Technology, Bangalore
Completed: 2023
CGPA: 7.5

PUC
Y.T.S.S PU College, Yellapur
Completed: 2019
Percentage : 62.83

SSLC
Y.T.S.S Composite Junior College, Yellapur
Completed: 2017
Percentage: 76.32

Skills

- Programming Languages: Java.
- Web Development: HTML, CSS, JavaScript
- Database: MySQL.
- Version Control: Git
- Microsoft PowerApps

Experience

Full-Stack Web Development Intern
IC Solutions, Bangalore
Duration: August 2022 - September 2022

- As a Full Stack Web Developer Intern, I worked on an Event Scheduler website. I designed and implemented features such as event creation, user registration, and authentication.
- I utilized front-end technologies like HTML, CSS for the user interface and focused on responsive design and worked with a database management system for data storage.
- Collaborated with back-end developers to integrate front-end and back-end functionalities.
- I optimized the website's performance and scalability and actively collaborated with the team throughout the project. Overall, it was a valuable learning experience in full-stack development and project management.

Projects

Crop Yield Prediction Based On Indian Agriculture Using Machine Learning

- This project focused on leveraging machine learning techniques to predict crop yields in the context of Indian agriculture.

- This project will predict the crop yields by analyzing various factors such as weather patterns, soil characteristics, and historical data.

- The historical data for the prediction will be taken from kaggle.

- The goal was to develop a predictive model that could assist farmers in making informed decisions and optimizing crop production.

Languages

- Kannada (Native)

- English (Fluent)

- Hindi (Fluent)

- Telugu (Beginner)
